Worksheet 3.7a: Crime and punishment

1. In the table below, for each punishment across the top, tick the factors listed on the left that you think it takes into account. Tick as many factors as you like for each punishment.

	1. Discharge	2. Fine	3. Community sentence	4. Prison
A. Protects the public				
B. Changes the offender's behaviour				
C. Makes up for wrongdoing				
D. Gives the offender a chance by not punishing this time				
E. 'Hits where it hurts'				
F. Takes personal circumstances into account				
G. Reduces future crime rate				
H. Allows victim(s) to have a say				
I. Makes police and politicians look good				
J. Gives the offender lots of responsibility				

2. Which of the four punishments listed above is most suitable for which crime? Write the number on the line.

   a) A millionaire drives at 110mph. She kills a 10-year-old. _____

   b) A very poor man drives at 110mph. He kills a 90-year-old. _____

   c) An 18-year-old steals a sandwich from his local supermarket. _____

   d) A 42-year-old steals £100 from a till at the supermarket where she works. _____

   e) A 19-year-old kidnaps his uncle in the hope of getting money from his aunt. _____

   f) A 36-year-old punches another football fan. She does this because she's racist. _____

   g) A depressed 28-year-old sexually assaults her friend's daughter. _____
