

6th Form 2026 Summer Transition Work

SUBJECT:	AAQ Applied Science
-----------------	----------------------------

Dear future Applied Scientists,

To help you prepare for the coursework and exam parts of your BTEC there are some areas of GCSE and A-level content that it would be helpful for you to go over. Some of it is a GCSE recap and some of it is new A-level content. The work on Seneca is under sections for Biology, Chemistry and Physics as you will be taught the exam parts in these separate areas.

As far as your coursework is concerned the message from the exam board is clear; if you follow the guidance and direction from your teachers, use the marking criteria and meet your deadlines then there is no reason you cannot be very successful in Applied Science.

We look forward to helping you achieve the best grade possible starting in September.

Listed below are the pre-reading and preparatory tasks you should complete prior to commencing your 6th form course. These tasks are designed to help you transition smoothly and succeed academically and personally in your new environment.

Task	Resources or Guidance
Complete the Seneca work called "Year 11 into 12 Transition work for AAQ Applied Science – Biology".	<i>Log into your Seneca as before and access your Year 11 Science Class. I have added the A Level course to your Year 11 classes.</i>
Complete the Seneca work called "Year 11 into 12 Transition work for AAQ Applied Science – Chemistry".	<i>Log into your Seneca as before and access your Year 11 Science Class. I have added the A Level course to your Year 11 classes.</i>
