

6th Form 2026 Summer Transition Work

SUBJECT:	A' LEVEL MATHS
----------	-----------------------

Listed below are the pre-reading and preparatory tasks you should complete prior to commencing your 6th form course. These tasks are designed to help you transition smoothly and succeed academically and personally in your new environment.

Task	Resources or Guidance
	As part of our plan for Summer 2026, all students will be required to complete the Sparx Maths Transition Booklet over the holiday (Download the Sparx Maths Transition Booklet in the work area). This resource is designed to bridge the gap between GCSE Mathematics and the increased challenge of A Level Maths. Working through the booklet will reinforce essential GCSE skills while introducing the higher-level reasoning and algebraic fluency needed for post-16 study. Completing this work will support a smooth transition into Year 12 and ensure students begin the A Level course with greater confidence and a stronger mathematical foundation
